“ Nicki, although I am not biologically related to you, and knew you only a short time (almost 2 weeks) - I grew to love you and became attached to you very quickly. Your heart and soul so very precious, how could anyone not love you, dear Nicki? Though you were in the hospital, you expressed your deep concern for my welfare and broken foot. You are so very special, and you have blessed my life.....I hope to see you again one day.
