“ *The best thing I remember about my Aunt was when she let me and my brother spend the night at her house when we were little. The only thing that I know is that she is not in pain, she's 6'3, head on a swivel, and she is shooting the breeze with her daddy. And she was always there for us Melton's when we needed something. She was loving caring to other's and she loved playing Softball with her Granddaughter. What make me smile the most was when I graduated High School.*
