“ , words are inadequate in the face of grief. But what is of value is just being there for your friend. People underestimate the value of that. Just to sit quietly with her, hug if needed, talk if she wants to, but allow the silence too. And also sticking around for the long haul. Too many people only offer support up until the funeral, when it's after that the reality of permanent loss really sinks in, as the shock wears off. And because nobody knows what to say and it makes everyone feel uncomfortable, lots of people just keep away, which makes things worse of course. Just be there, so she knows she's not all alone.
